MEMORANDUM: Update May 2020

SUBJECT: Memorandum of Instruction (MOI), Chaplain Credentialing and Training Event 2020 (CCT2020), Presbyterian Council for Chaplains and Military Personnel (PCCMP)

This MOI provides information for all military chaplains endorsed by the PCCMP to use in preparing for and attending CCT2020 at the Montreat Conference Center, Montreat, NC August 10-14, 2020. The uniform for participants is civilian casual for all events

1. Currently serving chaplains, regardless of component, are expected to attend this event at least once every three years, unless prevented by mission requirements. All currently serving chaplains will be supported in the maintenance of their professional credentials and ecclesiastical standing through attendance and participation.
2. The program of instruction (POI) this year will be provided by the Veterans Affairs Mental Health and Chaplaincy Program (VAMHCP) and the Atlanta VA Empower Veterans Program (AVEVP). On Tuesday and Wednesday VAMHCP will provide a window into an evolving movement of collaboration between mental health and chaplaincy in caring for our people.
3. Thursday, the AVEVP will provide an example of a real-life application of the teamwork approach between mental health providers and the chaplaincy. This program has produced statistically valid indicators of improvements in several leading factors related to life skills and resiliency. This teamwork approach can apply in all settings. This POI will provide valuable knowledge and skills for all chaplains in attendance to address issues facing the people we serve. Though not specifically tailored toward suicide prevention, the enhanced capabilities derived from this event will add to a chaplain's overall ability to support leadership in all areas related to support for members and their families in demanding situations.
4. Sessions will be broken down into three main **learning objectives**. 1) Instill knowledge of the latest developments in mental health and spiritual care research, 2) Define collaborative terminology and teamwork opportunities, 3) Acquire and use new tools and resources. Many of these tools have been successfully used in the Mental Health Integration for Chaplain
